**17–19 December 2026**

CYUT · Taichung, Taiwan · Hybrid

Organizer: Chaoyang University of Technology (CYUT), Taiwan
Co-organizer: Dong Thap University (DThU), Vietnam

# Welcome from the Presidents

### Tao-Ming Cheng, Ph.D.

**President**
**Chaoyang University of Technology (CYUT), Taiwan**

On behalf of Chaoyang University of Technology, it is my great pleasure to welcome you to SSIM 2026. Co-organized with Dong Thap University, this year's conference brings together scholars from Taiwan, Vietnam and beyond to explore how intelligent technologies can serve people and communities. At CYUT, we believe that innovation must go hand in hand with human-centered values, and this conference reflects that commitment. I thank our partners, keynote speakers, authors and reviewers for their contributions, and our colleagues and students for their hard work. I wish you inspiring discussions, new collaborations and a pleasant stay in Taichung.

### Truong Tan Dat, Ph.D.

**Rector**
**Dong Thap University (DThU), Vietnam**

It is a great honour for Dong Thap University to co-organize SSIM 2026 with Chaoyang University of Technology. Our partnership continues to grow through academic exchange and cooperation, and this conference is a meaningful milestone in that journey. As artificial intelligence reshapes education, society and management, SSIM offers a valuable space to share research, ideas and practice across borders. I warmly thank CYUT for its hospitality and all participants for their contributions. I hope SSIM 2026 will open new opportunities for cooperation and lasting friendship among our institutions and our people.

## Conference Leadership

### Wen-Goang Yang, Ph.D.

**Vice President for Administrative Affairs**
**Chaoyang University of Technology (CYUT)**

### Sung-Chi Hsu, Ph.D.

**Vice President for Academics and Research**
**Chaoyang University of Technology (CYUT)**

### Cao Dao Thep, Ph.D.

**Vice Rector**
**Dong Thap University (DThU)**

### Liza Lee, Ed.D.

**Dean, College of Humanities and Social Sciences, CYUT**
**Conference Chair, SSIM 2026**

# 01 Welcome

On behalf of the organizing committee, it is my pleasure to welcome you to SSIM 2026. As AI reshapes how we teach, care, communicate, govern and do business, the need to integrate technological innovation with human-centered values has never been more important.

This year 67 papers from Taiwan, Vietnam and other countries across Asia and Africa will be presented across 18 parallel sessions, together with 17 posters and two keynote speeches. I thank our co-organizer Dong Thap University (DThU), our keynote speakers, session chairs, reviewers and every author for making this exchange possible. I wish you an inspiring time in Taichung.

**Liza Lee**
Conference Chair, SSIM 2026

# 04 Keynote Speeches

KEYNOTE 1 · 10:00–10:50 · V-5F

## The Future of Social Work in the Age of AI: From Practical Tools to Professional Collaboration

**Prof. Hsi-sheng Wei**
Professor of Social Work, National Taipei University, Taiwan

**Abstract.** AI is changing social work practice, research and education. The talk reviews uses of machine learning and generative AI in administration, risk assessment, data analysis, training and direct service. It then examines privacy, algorithmic bias, professional judgment and ethical responsibility, and argues that human–AI collaboration can raise service quality while keeping the profession's core values.

**Biography.** Prof. Wei researches school bullying, adolescent mental health, youth trauma, program evaluation and the social implications of AI. His recent work studies large language models in crisis intervention and AI ethics, bias and fairness. He has served as Dean of Research and Development, Chair of the Department of Social Work and Director of the Student Counseling Center at National Taipei University.

KEYNOTE 2 · 11:10–12:00 · V-5F

## Document Verification in the AI Era: The Battle Against Presentation Attacks

**Dr. Quoc Bao Dang**
Lecturer, Faculty of Technology and Engineering, DThU, Vietnam

**Abstract.** Automated document verification underpins banking, border security and digital eKYC, yet generative fraud and realistic spoofing challenge current systems. Deep learning methods work well in controlled settings but often fail across domains. The talk reviews advances in Identity Document Presentation Attack Detection (ID-PAD) and presents SwinDCT-PAD, a dual-stream framework that combines a LoRA-adapted Swin Transformer V2 with a discrete cosine transform branch. Evaluated on the IJCB 2026 benchmark, it lowers detection errors and generalizes to unseen document formats and attacks.

**Biography.** Dr. Dang is a lecturer and researcher at DThU. He holds a Ph.D. in Computer Science from La Rochelle University, France. His interests include machine learning, computer vision, document intelligence, document image retrieval, digital watermarking and identity document verification.

# 05 Guidelines

**All sessions, onsite and online, run 60 minutes (4 papers): 13 minutes total per paper (10 min. presentation, 3 min. Q&A). Session chairs keep their remarks brief and watch the time: introductions take place in the brief transition time between papers (opening 1.5 min · 2 min between papers · 30 s closing).**

## Oral presenters (onsite)

- Arrive in your room 10 minutes before your session to load your slides (PPTX or PDF) on the room computer with the student assistant.
- Rooms provide a computer, projector, HDMI connection and microphone. Bring your file on a USB drive as a backup.
- Keep your presentation to **10 minutes** to allow 3 minutes for Q&A. The session chair will signal you at 8 and 10 minutes. You will be asked to stop your presentation at 13 minutes.
- If you are late, you will be the final speaker. The session concludes with the last slotted presentation. No session will go overtime.

## Online presenters (Rooms E & F)

- Choose one: a pre-recorded video (MP4, max. 10 min) or a live online talk (10 min).
- By **Friday, 11 December**, upload your video or slides to the Google Drive folder sent by email; staff run all files.
- Join your Google Meet link (sent by email) 5 min before your session; display name "Paper ID – Name".
- Test your device, microphone, camera, and internet connection in advance to ensure smooth participation.
- **Live Q&A (3 min) is part of your presentation**: stay in the meeting, ready to answer. If your connection drops, rejoin at once.

## Session chairs

- Keep the introductions brief (presenter's name and session title only). Each 13-minute presentation includes the Q&A.
- If a speaker is not present, move on to the next person. Late presenters will speak last.
- Hand each presenter their presentation certificate right after their Q&A, during the 2-minute transition (certificate, thanks, next introduction).

## Poster presenters

- Set up your poster in the 2F Hallway during the morning coffee break (10:50–11:10).
- Please print your poster in A0 portrait (84.1 × 118.9 cm) and bring it with you; the organizers do not print posters. Mounting materials are provided.
- Stand by your poster during the Coffee Break & Poster Session (14:00–14:30).
- Posters stay on display until 16:40.
